

ZEPHIRO SNOW 1250

1250 Watt Snow Machine with wired and wireless control

It is well known how the world of show business and entertainment is based on the fusion of music, images, lights and environmental effects. The sensory involvement of those who enjoy the entertainment event is increasingly present nowadays. Centolight knows very well this need and thanks to the Zephiro line it offers a wide range of machines for smoke, fog, bubbles, snow and more.

Zephiro Snow 1250 is a compact snow machine; designed for small to medium environments and equipped with wired and wireless control. It generates a soft and persistent snow, particularly appreciated in all those situations where a simulation of winter and snow scenarios is required.

It has a power output of 1250W, is designed for indoor applications and can cover about 50-60m² with 1 liter of fluid.
